

ROHIT RAMESH ZORE

Full Stack Developer | MERN Stack | React Native | JavaScript | Python | MySQL

+91 8879466037 | rzore430@gmail.com | Mumbai, Maharashtra | linkedin.com/in/rzore430 | github.com/zore1803

PROFESSIONAL SUMMARY

Full Stack Developer Intern at DataCircles Technology, contributing to a production-grade MERN stack CRM and Client Portal platform covering client lifecycle management, Razorpay payment integration, invoicing, and role-based authentication. B.E. student in AI & Data Science (Expected 2027) with two production-grade applications built solo — LOQIT (web + Android APK, active) and E-Guruji. Proficient in React, Node.js, Express, MongoDB, React Native (Expo), JavaScript (ES6+), Python, MySQL, and Supabase (PostgreSQL). Skilled in RESTful API development, OAuth 2.0/JWT authentication, Razorpay integration, and cross-platform mobile development. Also completed a 4-month cybersecurity internship strengthening secure coding practices.

CORE SKILLS

Front-End: React, React Native (Expo), JavaScript (ES6+), HTML5, CSS3, Responsive Design, Cross-Platform Mobile Dev

Back-End: Python, Node.js, Express.js, REST API Design, API Integration, Supabase Functions, CI/CD

Databases: MySQL, MongoDB, Supabase (PostgreSQL), Schema Design, CRUD Operations

Auth & Security: OAuth 2.0, JWT Authentication, Secure Session Management, RBAC

Tools & Platforms: Git, GitHub, MongoDB Compass, Razorpay, Expo, Linux, Agile Development, VPS

EXPERIENCE

Full Stack Developer Intern | DataCircles Technology, Thane

Jun 2026 – Present

- Contribute to DataCircles' production MERN-stack CRM and Client Portal (thecopperstudio.com), working across a React + Vite front-end and Node.js/Express REST API backend.
- Collaborate on Admin and Client Portal features including package purchasing, Razorpay payment integration, invoice generation, project tracking (Kanban, Gantt), document management, and meeting scheduling.
- Gained hands-on exposure to role-based authentication, JWT, and MongoDB schema design in a production codebase; contributed to resolving deployment and data-sync challenges.

Cybersecurity Intern | Elevate Labs

Jan 2026 – Apr 2026

- Developed a Python-based vulnerability scanner and keylogger for authorized internal testing; performed network traffic analysis using Wireshark and documented firewall/password security findings with remediation recommendations.

Mathematics & Chemistry Tutor (Part-Time) | Nitores Samarth Classes, Worli Village

Jun 2023 – Present

- Taught Mathematics and Chemistry to Class 11–12 students, developing personalized learning plans; strengthened communication, mentoring, and problem-solving skills through one-on-one and group teaching.

PROJECTS

LOQIT — Full Stack Anti-Theft Platform (Web + Android APK) | Personal Project / Startup

Oct 2025 – Present

- Architected and shipped a cross-platform product with React Native (Expo) for mobile, a web dashboard, and Supabase (PostgreSQL) backend; integrated OAuth 2.0/JWT authentication across 3 user roles.
- Built a Law Enforcement Command Center dashboard with GIS-based real-time device tracking, incident logging, and sub-second REST API data sync; managed the complete product lifecycle solo across mobile, web, BLE integration, database, and API architecture.

E-Guruji — Full Stack Puja Booking Web Application | Academic Project

Sep 2024 – Oct 2024

- Built a multi-role service booking platform from scratch in under 2 months — front-end UI, back-end API logic, JWT authentication with RBAC for 3 roles, Razorpay payment integration, and a normalized MySQL schema across 5+ tables.
- Built a full admin panel enabling real-time management of users, listings, bookings, and transaction records.

EDUCATION

B.E. — Artificial Intelligence & Data Science, VPPCOE, Mumbai

2023 – 2027 (Expected)

CGPA: 7.5 / 10.0 | Relevant Coursework: Data Structures & Algorithms, Computer Networks, DBMS, Web Technologies, OOP, AI & ML

CERTIFICATIONS

- Jr. Penetration Tester — TryHackMe | CompTIA Pentest+ Learning Path — TryHackMe (32+ hrs) | Cyber Security 101 — TryHackMe (45+ hrs) | AI Agent Architect — IBM | Generative AI — GDSC

ACHIEVEMENTS & LEADERSHIP

- Ranked Top 5% globally on TryHackMe cybersecurity platform across 100+ challenge rooms.
- Treasurer, Computer Society of India (CSI) College Chapter. College-level Volleyball player. Languages: English, Marathi, Hindi (all fluent).
